How They Are Funded & Where They Are Found

FEDERAL MATCH

Nearly all DD service dollars are matched with federal Medicaid funding. Under Title XIX, Medicaid is used to match state funding for HCBS waiver services. Federal Medical Assistance Percentages (FMAP) are the percentage rates used to determine the matching funds rate allocated annually to certain programs. The FMAP for FY 2019 is 50.00% state and 50.00% federal with the exception of the Community First Choice program which receives an additional 6% federal match.

SUPPORTERS

Thank you for your interest in advocating for children and adults with intellectual/developmental disabilities! The Arc of Washington's Action Center is here to make advocacy easy for you. We will not overwhelm you with emails. When action is needed, you will get an Action Alert notification with a brief summary of the issue and easy-to-follow instruction to share your perspective. We greatly appreciate you each time you take action.
Legislators need to hear why proposed budget cuts would have dire consequences to people with DD. Make sure that your legislators hear your personal story about how the cuts would affect you!
