

# Identify and Close Gaps in Mental Health Services for People with Developmental Disabilities

## Problem:

The integration of Medicaid health care and behavioral health care has created gaps in mental health services for individuals with developmental disabilities. This major overhaul of the health care system did not adequately prepare to address the multifaceted needs of people with developmental disabilities.

## Proposal:

Create a mental health service system inclusive of people with developmental disabilities. Support HB 1394 Sec. 10 workgroup generated recommendations regarding proposals to identify and examine current gaps in mental health services for children and adults with developmental disabilities. Examine recommendations from the Children & Youth Behavioral Health Work Group for improvements to services for individuals with developmental disabilities.

## Implement Recommendations From the HB 1394 Workgroup
