Senate District 17

Do you have a personal connection or professional experience with someone who has an intellectual/developmental disability? (I/DD) If so would you describe its impact on you? How would it affect you in this job?

yes, my grandson

What are your top three priorities and how would you ensure people with developmental disabilities and their families are included in them?

greater access by greater funding for those on medicaid, Greater school for those with disabilities

Washington is 38th in the Nation for per-capita spending for individuals with I/DD. Would improving this statistic be a priority for you, and if so, what would your strategy be?

I would welcome the opportunity to help in this area and would seek your help

Is there other information you'd like constituents with developmental disabilities and their family and friends to know?

Just I know that there are needs that truly need to be met and hope to have the opportunity to work with you on these important issues
