

Please Join Us!

Self-Advocates In Leadership (SAIL) meets on the second Tuesday of each month on the SAIL Zoom and occasionally at Sea-Tac Radisson.

We are dedicated to fighting for the rights and power of people with intellectual and developmental disabilities through changing public policy in the legislature.

**2025
Washington
State
Legislative
Agenda**

Our Medical Equipment belongs with us

SAIL wants to ensure that medical equipment like wheelchairs are transported to where we are when we ride in ambulances.

Transportation

We all deserve access to reliable, safe and accessible transportation. This is necessary for everyone to be equally included. SAIL is committed to working with policymakers to increase transportation resources

Shut them Down

SAIL believes people with IDD belong in the community and not in restrictive congregate settings like institutions. Shut Them Down!!!

Individuals should be honored.

SAIL believes records and artifacts at all of our DD Institutions should be preserved, history remembered, and people honored.

'Nothing About Us Without Us' Act

SAIL is fighting to ensure the Nothing About Us Without Act gets implemented correctly so that our voices are heard and respected.

State Budget Increases to DD Programs

SAIL is fighting for adequate funding for DD programs and services. This includes increases for housing, employment, education, providers, and other community activities.
