## FOR PEOPLE WITH INTELLECTUAL & DEVELOPMENTAL DISABILITIES

*The Arc's vision is for people with intellectual and developmental disabilities (IDD) to be valued members of their communities with the opportunity to realize their full potential and a future that is secure.*

The Arc of Washington State has been advocating for individuals with intellectual and developmental disabilities (IDD) and their families since 1936. We work to ensure that the state knows the critical needs of both children and adults with IDD and that the necessary funding for those quality services and supports is consistently appropriated by the legislature. The Arc of Washington State centers the voices of individuals with IDD and their families ensuring they have the information they need to have an active voice as legislative policies and budgets are crafted and passed each year.

The Arc of Washington State has compiled input from members, stakeholders, and like-mission organizations and coalitions to identify legislative priorities for the 2025-2026 Legislative Session. The Arc works closely with the Developmental Disabilities Administration (DDA), the Governor's Office, and multiple agencies to provide input to agency Decision Packages and advocate for gaps in community-based services and civil rights.
